SUMMARY

Team Lead and Full-Stack Software Engineer with 13+ years of experience designing and delivering enterprise software platforms using C#, ASP.NET Core, Angular, SQL Server, and Java. Experienced in leading technical direction for the RK.Web platform, software architecture, microservices, micro-frontend architecture, cloud delivery, and team mentoring.

CORE SKILLS

C# · ASP.NET Core · Angular 21 · TypeScript · JavaScript · RxJS · Microservices · Micro-Frontends · Module Federation · Clean Architecture · CQRS · DDD · REST APIs · SQL Server · Oracle · MongoDB · Azure · Azure DevOps · GitHub Actions · Docker · OpenAPI · JWT · Entra ID · PII Encryption · Windows Services · WCF · J2EE · Struts2

PROFESSIONAL EXPERIENCE

Lead Software Engineer

Feb 2018 – Present

DataPath Ltd. · Dhaka

- Lead the technical direction of the RK.Web platform, covering architecture, technical design, implementation, code quality, performance, and mentoring.
- Deliver enterprise web platforms using Angular 21 micro-frontends, .NET 8 microservices, shared libraries, and reusable UI components.
- Design and implement hybrid Entra ID + JWT authentication, automatic PII encryption, and secure distributed system patterns.
- Build and maintain shared Angular component libraries, API contract standards, and cross-team engineering practices.
- Contribute to product delivery across RK.Web.Client, RK.Web.Backend, and RK.Web.Lib for a retirement-plan platform.
- Worked earlier on Unify.Backend, Unify.Frontend, CensusMassDataService, TPAManager, and WindwardReportServer platforms.

Software Engineer

Jun 2015 – Jan 2018

Next IT Ltd · Banani, Dhaka

- Built a Garments Accessories ERP with 8 modules including Merchandising, Production, Inventory, LC, Finance, HR, and Payroll using ASP.NET Web API, AngularJS, and SQL Server.
- Developed a Project File Service using Node.js, AngularJS, and MongoDB.

Java Software Engineer

Nov 2013 – May 2015

ATI Limited · Uttara, Dhaka

- Built a Hospital Scheduling and Rostering system and an online/offline School Management System using J2EE, Struts2, Oracle, and Java Swing.

EDUCATION

B.Sc. (Engg.), Information and Communication Technology

Apr 2009 – Sep 2013

Mawlana Bhashani Science & Technology University

GPA: 3.13 / 4.00

SELECTED PROJECTS

ASP.NET Core SOLID & Clean Architecture (.NET 8)

Clean Architecture, CQRS, and SOLID principles template for enterprise .NET applications.

Angular 17 Micro-Frontend

Module Federation with Angular standalone components using a shell and remotes.

Dapper Web API (.NET 8)

CRUD Web API using Dapper on SQL Server.

Serilog for .NET 8

Structured logging configuration for enterprise .NET applications.
